SISTEMAS EMBARCADOS II

Tarefa 01

JOÃO VICTOR PEREIRA DELFINO   11811EAU018

Uberlândia/MG

6 de agosto de 2023

Sumário

Objetivos

O objetivo desse roteiro é explorar as ferramentas básicas de interação de um usuário como o sistema, por meio da linha de comando. À primeira vista, a linha de comando pode parecer um sistema arcaico e difícil, entretanto, esse meio representa uma das maiores vantagens dos sistemas Linux/Unix.

Utilizando o livro: "Linux: Comandos Básicos e Avançados" (2ª edição) de Vivas, Araújo, Pitangui e Assis, fora reproduzido os comandos apresentados do capítulo 1 ao 10 e 14. Através de *printscreens* dos resultados dos comandos apresentados, foi elaborado este relatório.

Prática

Acessando o sistema

```
Ubuntu 20.04.3 LTS user-VirtualBox tty1

user-VirtualBox login: user
Password:
Welcome to Ubuntu 20.04.3 LTS (GNU/Linux 5.11.0-41-generic x86_64)

 * Documentation:  https://help.ubuntu.com
 * Management:     https://landscape.canonical.com
 * Support:        https://ubuntu.com/advantage

0 updates can be applied immediately.

Your Hardware Enablement Stack (HWE) is supported until April 2025.
Last login: Wed Dec  8 00:28:56 -03 2021 on tty4
user@user-VirtualBox:~$
```

Prompt de login

```
Ubuntu 20.04.3 LTS user-VirtualBox tty1

user-VirtualBox login: user
Password:
Welcome to Ubuntu 20.04.3 LTS (GNU/Linux 5.11.0-41-generic x86_64)

 * Documentation:  https://help.ubuntu.com
 * Management:     https://landscape.canonical.com
 * Support:        https://ubuntu.com/advantage

0 updates can be applied immediately.

Your Hardware Enablement Stack (HWE) is supported until April 2025.
Last login: Wed Dec  8 00:28:56 -03 2021 on tty4
user@user-VirtualBox:~$
```

Explicando a Padronização de Apresentação

```
user@user-VirtualBox:~$ /home
bash: /home: Is a directory
```

Formato dos Comandos

```
user@user-VirtualBox:~$ ls
Desktop  Documents  Downloads  Music  Pictures  Public  Templates  Videos
```

Opções dos Comandos

```
user@user-VirtualBox:~$ la -a -l
total 124

```
user@user-VirtualBox:~$ cd --help
cd: cd [-L|[-P [-e]] [-@]] [dir]
    Change the shell working directory.

    Change the current directory to DIR.  The default DIR is the value of the
    HOME shell variable.

    The variable CDPATH defines the search path for the directory containing
    DIR.  Alternative directory names in CDPATH are separated by a colon (:).
    A null directory name is the same as the current directory.  If DIR begins
    with a slash (/), then CDPATH is not used.

    If the directory is not found, and the shell option `cdable_vars' is set,
    the word is assumed to be  a variable name.  If that variable has a value,
    its value is used for DIR.

    Options:
      -L        force symbolic links to be followed: resolve symbolic
                links in DIR after processing instances of `..'
      -P        use the physical directory structure without following
                symbolic links: resolve symbolic links in DIR before
                processing instances of `..'
      -e        if the -P option is supplied, and the current working
                directory cannot be determined successfully, exit with
                a non-zero status
      -@        on systems that support it, present a file with extended
                attributes as a directory containing the file attributes

    The default is to follow symbolic links, as if `-L' were specified.
    `..' is processed by removing the immediately previous pathname component
    back to a slash or the beginning of DIR.

    Exit Status:
    Returns 0 if the directory is changed, and if $PWD is set successfully when
    -P is used; non-zero otherwise.
```

Shell Utilizado

```
user@user-VirtualBox:~$ echo $SHELL
/bin/bash
```

```
user@user-VirtualBox:~$ cat /etc/shells
# /etc/shells: valid login shells
/bin/sh
/bin/bash
/usr/bin/bash
/bin/rbash
/usr/bin/rbash
/bin/dash
/usr/bin/dash
```

Caminho Completo

```
user@user-VirtualBox:~$ /bin/ls
Desktop    Downloads  Origem    Public     Videos
Documents  Music      Pictures  Templates
```

Limpando a tela

```
ser@user-VirtualBox:~$ clear
```

Exibindo Mensagens no Terminal

```
user@user-VirtualBox:~$ echo teste
teste
user@user-VirtualBox:~$ echo 'teste'
teste
user@user-VirtualBox:~$ echo "teste"
teste
user@user-VirtualBox:~$ echo -e "string1\tstring2\nstring3"
